

Calgary Equity Index: Community Belonging and Safety Domain Score By Census Tract

The Community Belonging and Safety domain score is an equally weighted combination of indicators that represent the sense of connection and overall safety of residents in their community. A high domain score reflects areas with greater inequities and more community belonging and safety need (such as areas with high crime and high mobility rates). A low domain score reflects areas with fewer inequities and fewer community belonging and safety needs (such as areas with a greater sense of connection, high voter participation rates, and low crime rates). The Community Belonging and Safety domain score Calgary was 17.7 in 2024.
