

Calgary Equity Index: Walk Score By Census Tract

Walk Score measures the walkability of any address using a patented system on a scale from 0 to 100. For each address, Walk Score analyzes hundreds of walking routes to nearby amenities. Higher scores are awarded to areas where amenities are closer walking distance, with a score of 100 representing a "Walker's Paradise" and 0 represents areas that are "Car-Dependent". The Calgary average for this indicator was 50.6 in 2023.
